

# How to determine if your Spray Tip is worn

**New 615 Tip**

12 in.

11 in.

9 in.

5.5 in

*When a tip with a 12" fan wears down to a 9" fan, it outputs 30% more paint on a 25% less area.  
When the fan has lost 25% of its original size, it is time to replace the tip.*
