INDUSTRIAL EQUIPMENT**

Why use Andrae Spray Booth filters?

**CHANGING YOUR SYSTEM TO ANDRAE FILTERS WILL
ENSURE YOUR SPRAY BOOTH PERFORMS.
SPEND LESS TIME ON MAINTENANCE,
AND MORE TIME MAKING MONEY!!**

ANDRAE Filters can hold an enormous amount of overspray! Compared to traditional fibreglass mesh-type exhaust filters the ANDRAE Filter can hold up to **THREE TIMES (3x)** the amount of overspray before filter change-out is needed.

Not only that, the overspray is captured **OUT OF THE AIRSTREAM** meaning the filter can load up to 60% of its capacity without there being any significant reduction in airflow. (Unlike Mesh-type Filters that start blocking as soon as they start being used.)
