

BLASTECH

MASTERFIELD
INDUSTRIAL EQUIPMENT

Why the Andreae Spray Booth Filter is the most efficient and effective filter available today!

The unique deep-pleated design of the Andreae means overspray is captured within the filter whilst maintaining full airflow. In fact, not only does the Andreae Filter have THREE TIMES (3x) the holding capacity of traditional filters but it can hold over 60% of its loading before there is any significant reduction in airflow.

However, this doesn't mean you NEVER change filters! Well-maintained facilities are cheaper to run and require less maintenance.

**REPLACING YOUR FILTERS
GUARANTEES YOUR BOOTH WILL BE
RUNNING AT PEAK PERFORMANCE
ALL DAY EVERY DAY!**
